3. Eligibility of

a) organisations,

b) activities with indicators

and c) costs

3. a) Eligibility of organisations

Eligibility criteria (GfA 3.1)

- **Eligibility criteria** are related to:
 - Legal status
 - Geographical location
 - Professional and financial background
- **Exclusion criteria**
- Criteria connected to the **project partnership**

Nature of eligible organisations (1)

Important note:

in line with the approved Co-operation Programme (see indicative lists of potential beneficiaries under the description of each Specific Objective), **Calls for Proposals** within the Programme's framework **will be open as a general rule to non-profit organisations coming from one of the two participating Member States**. This basic eligibility criterion will be closely observed throughout the submission process of project proposals and during project implementation in case of Priority Axis 2, 3 and 4.

Nature of eligible organisations (2)

There are two exceptions to that rule:

- **Priority 1** (Economic Development – Enhancing the competitiveness of **SMEs**), to be launched at a later stage, following the setting up of its implementation structure
- For-profit business entities **owned to a 100 per cent extent by the state**, a local government or another public non-profit organisation (such **as state-owned forest companies** of the border area) can be eligible in Priority 2, 3 and 4 – **please consult** in every case with the Joint Secretariat or the staff of the JS Contact Points.

Legal status

In general, the following organisations are eligible to apply for the EU contribution:

- Public authorities,
- Bodies governed by public law (in line with Directive (EU) 24/2014),
- Non-profit organisations governed by private law

Public authorities

- legal entities established and governed by public law
- They exercise **authority**: they are empowered by law to make and enforce decisions in the field of their specified tasks.
- They are directly part of the system of **public/state administration**.

Bodies governed by public law

- They meet **needs in general interest** and do not have an industrial or commercial character.
- They have **legal personality**.
- They are **financed**, for the most part, by the state, regional or local authorities or other BGPL-s; or are subject to **management supervision** by such bodies; or have a **board** more than half of which is appointed by the state, regional or local authorities or other BGPL-s.

Non-profit organisations governed by private law

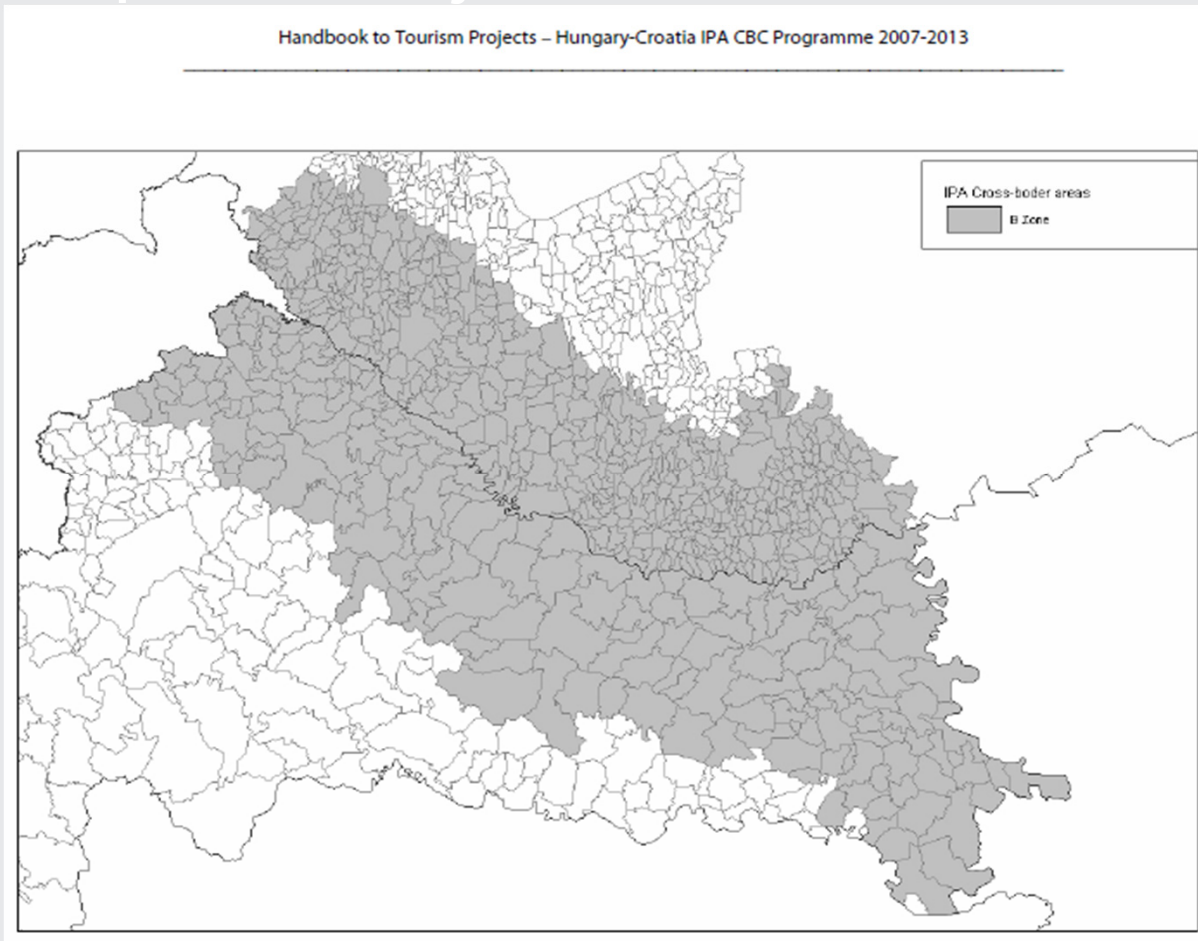

- They are founded and operating according the rules of **private law**.
- They, too, meet **needs in general interest** and do not have an industrial or commercial character. (This implies the non-profit nature of the organisation.)
- They, too, have **legal personality**.

Geographical location- 11 HU-HR counties

Geographical location- only in Specific objective 2.1.

- Developments should **exclusively target municipalities located in Zone B** as defined in the Handbook to Tourism Projects (it also includes zone C)

Headquarters **not** in eligible area (1)

- **Basic rule:** the headquarters of the organisation has to be in the eligible Programme area
- If the headquarters of the organisation is **not** registered in the eligible area, the existence of a **local/regional branch office** can justify the participation.
- **If the local/regional branch office has legal personality** then it should be the B and in case of contracting it can be an LB.

Headquarters **not** in eligible area (2)

If the headquarters of the organisation is **not** registered in the eligible area **and the local/regional branch office is not a legal person** then the national/regional organisation has to be the Beneficiary (B).

Conditions:

- the branch office, too, has to prove **at least one year** of operation,
- the leader of the branch office has to be authorised,
- management staff has to be local and project activities must have a cross-border character and implemented in the eligible Programme area

- **Project management experience**, matching the scale of the requested funding requesting from the present CfP
- Operation of **at least one year**.

Exclusion criteria (1)

- they have been convicted of an offence concerning their professional conduct by a judgement which has the force of 'res iudicata'

Exclusion criteria (2)

- they are guilty of misrepresentation in supplying the information required by the MA / NA as a condition of participation in the CfP or in failing to supply information
- they have attempted *to obtain confidential information or to influence the Monitoring Committee* (hereinafter referred to as the MC) or the MA *during the assessment process* of the current or a previous CfP of the Hungary-Croatia Cooperation Programmes

Project partnership

- Basic requirement for a cross-border project: **at least one** organisation from Hungary **and at least one** from Croatia.

- They all **receive EU contribution** from the project (through the LB).
- They are individually **responsible for irregularities** in the expenditure they declare.
- They are **responsible for the proper implementation of their project part.**

Important notes to the partnership (1)

- **The number of B-s should be limited**, it should be corresponding to the professional and/or financial needs of the project.
- **Subcontracted** activities to the Lead Beneficiary / Beneficiary **of the same project** are considered as the **ineligible** expenditure

Important notes to the partnership (2)

- Role of the LB
- Number of B-s
- Reliability of LB and B-s
- Administrative capacities of LB and B-s

Financial considerations

- **Financial liquidity** of B-s necessary due to the timeframe needed for the reimbursement of costs.
- **Advance payment in Hungary** for the amount of state contribution per B.
- Differences in minimum amount of **own contribution**:
 - HU: 0-5% for Beneficiaries, depending on the category

- Minimum and maximum project sizes + duration of projects in Priority 2, Spec. Objective 2.1 the rules are contained in the GfA, so Chapters 4 and 5 (pages 93 to 118) of the Handbook are not financially relevant for this CfP since they were only relevant for the third CfP of the Hungary-Croatia (IPA) CBC Programme 2007-2013

5. Communication requirements towards projects

Strengthening the Role of Communication 2014-2020

- **Programme launch event (Čakovec, 10 September 2015) and Annual Major Information Activity** reaching wide audience
- Harmonised Branding 2014-2020: Initiative by INTERACT- co-ordinator of the process, supported by EC
- The objective of the harmonisation process is to have more recognisable ETC in Europe- by creation of logo that would represent ETC/INTERREG for all Europe
- Each programme was free to adopt or not the “winning” brand name and brand logo- voluntary basis
- *HU-HR CBC Programme*: **based on TF decision** will use the harmonised **ETC/Interreg brand in combination with their own programme logo-** but as two distinct elements

Harmonised Branding and Changes in HU-HR CBC Programme 2014-2020

- Interreg appears clearly as the preferred option of more than 75% of the respondents (CBC programmes)- 2014
- The elected brand by the majority of programmes was presented at the European Commission's ETC annual event in Brussels on 19 May 2014
- Example of usage in HU-HR CBC Programme:

Changes for LB-s/B-s (1)

- Requirements are defined in GfA of the First CfP (*connection with AF sheet 13*) and later during the implementation in Project Communication Guidelines
- for operations/projects **not exceeding** 500 000 euro placing at least **one poster with information about the project** (minimum size A3), including the financial support from the Union, at a location readily visible to the public, such as the entrance area of a building – CPR 1303/2013
- More communication tools (media, web, social media)
- Focus on the activities to raise public awareness
- New designs of the billboards (LB and affected B-s) to put
- In case of larger works, more billboards/plaques
(HU-HR CBC 2007-2013 Ongoing evaluation findings)

Changes for LB-s/B-s (2)

Role of the Communication Manager

- Projects (especially larger) are **encouraged to have a separate person within the project team working part-time or full-time on communication activities**
- The main responsibility is to ensure transparency, visibility and smooth communication within the project team as well as with the project participants, the media and the general public
- Should be budgeted appropriately and connected to the Information and publicity Activities on AF sheet 13
